Docket No. 98N-1265  
Food and Drug Administration

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

I am very, very concerned regarding continuing to obtain my compounded medication. I live in a very rural area with no compound pharmacy that can provide what I need near by and in fact many states away. I should have the freedom to obtain this very needed medication from ANYONE providing it. I cannot take the commercial variety of hormones provided by Wyeth-Ayerst and will never be able to. Smaller companies devoted to women's needs are so VERY important and necessary and should not be restricted in any way. Don't take away our freedom of choice. This kind of restriction is right up there with wanting to regulate vitamins and supplements that we also need freedom to buy from whomever we wish.
